

Application Number & Location:22-1066

Proposal:

Date: 05/09/23

Terminology:

Tree preservation order (TPO), root protection radius (RPR), root protection area (RPA), tree protection fencing (TPF), ground protection (GP), construction exclusion zone (CEZ), arboricultural impact assessment (AIA), tree constraints plan (TCP), arboricultural method statement (AMS), tree protection plan (TPP). National Joint Utilities Group (NJUG). British Standard 5837:2012 Trees in relation to design, demolition and construction – Recommendations (BS5837:2012). Cellular Confinement System (CCS).

Following the submission of further details relating to the removal of the woodland over what was the old tennis court, the proposal has been amended to reinstate this land as a wildflower meadow, the applicants have shown the proposal to be sown with EM8, EM8 relates to a more wetland area, the proposed site is acidic free draining soil and EM7 remains a more suitable species mix, once this amended and plans updated I am happy to agree these details.
