COMMUNITY SERVICES - LICENSING

I wish to comment and object to the above applications to extend the sale of alcohol from 0000 to 2400 daily.

There is much publicity concerning the number of drivers who drink and drive and their involvement in serious road accidents. The message 'Don't Drink and Drive' is regularly promoted, yet here we are with the above applications to supply alcohol from garages 24/7. What sort of message is that sending out? I've run out of wine/beer. I know, let's drive to the garage and obtain some more.

I object to this application most strongly, it just does not make any sense at all.
