

Plans

**Proposed Plans
Proposed Mews Apartments**

Obvious Strategies

- Strategically no windows requiring a view for habitable room have been placed on the side elevations (Apart from one which is controlled to only look backwards, in accordance with the local authorities' advice, so as not to affect neighbours amenity). Windows for views are found to the front & rear of the proposals. Additional ventilation & light can be found from the roof windows.
- The proposals have deployed the use of screening to protect private amenity of the neighbours. This is in the form of a living green screen & also in fixed louvers.
- 4nos Apartment units with 4 nos parking spaces to be off site. The Existing vehicle access driveway to be used for pedestrian access
