Environment

Surrey Heath is fortunate to have large areas of high quality green space, countryside and internationally important habitats. The challenges facing our planet should not be underestimated and caring for it has never been so important. We are committed to showing leadership, working with partners, businesses and residents to undertake local action on the environment. In doing so we will work to protect and enhance our natural environment for future generations.

The Council declared a climate emergency in October 2019 and as a result of this it has developed a Climate Change Action Plan setting out expectations in this area.

The borough as a whole enjoys one of the highest recycling rates in the country, but there is still scope to achieve even more over the next five years.

Our Aims:

- Enhance and improve access to **green spaces** across the whole borough for the enjoyment of generations to come.
- Through our **strategic planning**, we will ensure that we balance our commitments to housing delivery and economic growth, alongside preserving and enhancing the natural environment as a place to enjoy and spend time.
- To work towards achieving the ambitious **net-zero carbon emission target** by 2030 as an organisation and contribute to making the entire borough net zero by 2050 (with the aspiration for net zero by 2030).
- To ensure that the Council as an organisation is resilient to the impacts of **climate change** and support the resilience of the whole borough to the impacts of climate change.
- Work with our communities and partners to reduce the amount of household waste produced by increasing **recycling** and ensuring improved knowledge of our recycling processes, and reducing the impact of environmental crime.
- Improve the **air quality** of the borough by working with partners to improve public transport and supporting and enabling greener and more active methods of travel.
