

Review of the Local Council Tax Support Scheme

Summary

That the Executive consider changes to the Local Council Tax Support Scheme introduced from 1 April 2013 in respect of working-age residents.

None of the options listed below will affect anyone of pensionable age, who are awarded Council Tax Support based on national eligibility criteria, in general this is more generous than the Surrey Heath working age scheme.

Portfolio – Finance

Date Consulted: 3 November 2021

Wards Affected - All

Recommendation

The Executive is asked to RESOLVE that a consultation be undertaken on the proposed a new Local Council Tax Support Scheme, with a view to with adoption from 1 April 2022

1. Background

- 1.1 In 2013 the government abolished Council Tax Benefit and asked local councils to introduce their own scheme for working age residents who need help paying their Council Tax. This became known as Local Council Tax Support.
- 1.2 Since April 2013 Surrey Heath have had a Local Council Tax Support Scheme (LCTSS) for working age residents and the cost of the scheme is borne by the other council tax payers in the borough.
- 1.3 Each year the council tax base is set. The setting of the tax base determines the equivalent number of Band D properties in the borough. This number is then used to calculate the average Band D council tax charge needed to raise the income identified as needed to provide our services.
- 1.4 In 2021/22 number of identified band D equivalent properties was reduced by 989 in respect of working age residents in receipt of Local Council Tax Support.
- 1.5 The 989 is based on £1,806,462 being awarded in Local Council Tax Support as of 5 October 2020.
- 1.6 The current cost of the working age scheme in 2021/22 is £1,823,767 and the pension age scheme £1,458,781 total £3,282,548.

1.7 On 9 September 2021 two alternative models were presented to the Community Support Member Working Group and officers were given the following recommendations to apply to the proposed revised model 1

- a 12 month transition period to protect those who would be financially worse off as a result of a revised scheme
- all households paying a proportion of their Council Tax cost
- maximum relief scaled back to a Band D level for the purposes of the scheme
- the provision of additional support to those from protected groups
- maximum relief in Band 1 to be increased from 90% to 95%
- Ensuring those who work are not disadvantaged in the proposed scheme

1.8 An updated revised model to reflect the suggested amendments was presented to the Community Support working Group on 18 October 2021.

1.9 The Community Support Working Group carefully considered the amendments and agreed the following principals for the revised scheme to be recommended to the Executive for adoption from 1 April 2022

- Limit the maximum increase in Council Tax payable after LCTSS awarded in 2022/23 to £5.00
- Reduction in entitlement due to the proposed change in capital limit to be included in the £5.00 maximum increase transitional scheme for 2022/23
- Band D to be the maximum band for assessment of LCTSS
- 95% to be the maximum award of LCTSS from 1 April 2022
- To review the adopted LCTSS in October 2022

2. Key Issues

2.1 To consider changes to the current Local Council Tax Support Scheme to ensure help is targeted at households least able to pay their council tax.

2.2 To balance the aim to support the financially vulnerable with our current protection for vulnerable residents.

2.3 To keep the change cost neutral.

2.4 To reduce unnecessary administrative costs caused by the need to issue revised council tax bills due to minor changes in income.

2.5 To make the Local Council Tax Support Scheme easier to understand.

2.6 To simplify the deductions made in respect of other adults in the household.

3. Options

- 3.1 To retain the existing Local Council Tax Support Scheme for 2022/23.
- 3.2 To adopt the Community Support Member Working Groups recommended banded LCTSS scheme from 1 April 2022, together with the one year of transitional protection for any current claimant that has an increase of more than £5 per week in council tax payable from 2021/22 to 2022/23, subject to the consultation outcome.
- 3.3 Consult on the proposed LCTSS scheme with a view to implementation from 1 April 2023, which would remove the need for transitional protection as 12 months' notice can be given to affected claimants.

4. Proposals

- 4.1 That the recommended revised LCTSS be considered to replace the existing Local Council Tax Support Scheme from 1 April 2022.
- 4.2 Transitional protection for those impacted by more than a £5 per week reduction in support in payments of council tax due to the introduction of the revised scheme from 1 April 2022.
- 4.3 Transitional protection from the new capital limit for those current vulnerable group claimants with over £6000 but less than £16,001 capital for the period 1 April 2022 to 30 September 2022.
- 4.4 Annex 1 sets out a broad outline of the treatment of income and capital in the revised LCTSS together with the income bands and suggested income thresholds.
- 4.5 The disregard of all Universal Credit income assists in the aim of the new scheme to "make employment pay".
- 4.6 The calculation of weekly income of self-employed claimants can present challenges and members may want to give consideration to introducing Minimum Income Floor to apply to self-employed income after one year of trading.
- 4.7 Minimum Income Floor will be applied where after one year of trading the income from self-employment is less than the appropriate National Minimum Wage for the number of hours the claimant or partner is deemed to be working as self-employed.
- 4.8 Backdating to be limited to one month and assessed on whether the claimant can show good cause for backdating to be applied.

5. Supporting Information

- 5.1 The proposed revised scheme has been modelled to try to predict the impact on our current working age claimants and any changes to the cost of scheme.

- 5.2 The current working age caseload has 1,415 claims in receipt of some help towards their council tax of which, 80% or 1,137 claims would fall into Band 1 in the proposed scheme.
- 5.3 The 1,137 claims fall into one of two categories in the current LCTSS with 712 in our vulnerable group category and as such eligible for up to 100% of their council tax to be met from the LCTSS. Non-vulnerable claims have the maximum help towards their council tax liability capped at 70%.
- 5.4 Our vulnerable category is based on the claimant or partner being in receipt of specified disability benefits rather than a focus on financial vulnerability.
- 5.5 The increase of the maximum eligible percentage from 70% to 95% for the non-vulnerable group will make a positive financial effect on the disposable income these claimants who fall in to Band 1.
- 5.6 Model 3 scheme would continue to apply the current income disregard for specified disability benefits and child benefit.
- 5.7 Of those currently receiving 70% maximum award 501 households would gain more than £5 per week.
- 5.8 The reduction from 100% maximum help to 95% maximum help is an average weekly amount of £1.45 for the 751 claims in this category. Highest weekly sum £3.31 lowest £0.27.
- 5.9 It is estimated that 121 households would lose more than £5 per week. The cost to protect these claimants fully would be in the region of £32,000.
- 5.10 There are 22 claims with capital over £6000 in the vulnerable group that would lose their entitlement as currently they have a £16,000 capital limit. The maximum capital claim has £15,639, with 11 other claims holding over £10,000.
- 5.11 Transitional protection to cushion the financial impact of the LCTSS change in 2022/23 to a maximum of £5 per week could be offered to both groups for 2022/23.
- 5.12 The cost of cushioning the financial impact to those current claimants with over £6000 to a £5 per week increase would be £29,213 for 2022/23.
- 5.13 During 2020/21 we made 15819 changes to Local Council Tax Support entitlement and each of those changes could trigger a revised bill being issued. To date in 2021/22 we have made 5009 changes to entitlement.

- 5.14 From October 2020 to date we have issued 26,282 revised council tax bills.
- 5.15 The recommended LCTSS will reduce the need to issue revised council tax bills as the income bands will result in some minor changes in income not resulting in a change to entitlement.
- 5.16 Of the £80,920,316 net debit of council tax to be collected in 2021/22, £1,464,828 is from residents in receipt of some form of council tax support, working age or pension age and the fewer changes to their entitlement will assist in the smoother collection of the debt due.

6. Corporate Objectives And Key Priorities

- 6.1 This supports the corporate objective of '**Health & Quality of Life**' in the recently agreed Five Year Strategy 2022 – 27 and the Annual Plan 2021/22 target - SHBC2 - POVERTY – 'work with partners to support those living in poverty in the Community'. This review addresses target FIN5 in the 2021/22 Annual Plan - "To review and update the Council Tax Support Scheme arrangements."

7. Policy Framework

- 7.1 Any scheme design has a wide-ranging set of competing and sometimes, conflicting objectives that need to be considered. These can be listed as (in no particular order):
- National welfare benefits
 - Council budget capacity
 - Council tax collection rates
 - Economy
 - Demographics
 - Caseload
 - Council objectives
 - Other Council comparisons
- 7.2 The report prepared by Policy in Practice addresses issues regarding impact on our caseload and the cost of the schemes.
- 7.3 Covid 19 has had an impact on the amount of Local Council Tax Support awarded. The award for 2020/21 to working age claimants increased by £200,960 compared to expenditure 2019/20. Allowing for the 3.77% increase in the council tax that represents a £136,686 increase. We also had an increase in the caseload for the first time in 3 years.
- 7.4 The Coronavirus Retention Scheme (furlough) is ended 30 September 2021 and the impact on caseload numbers or level of awards is not able to be predicted.
- 7.5 The increase in the maximum award percentage suggested in both schemes for those on the lowest income would help to meet the annual plan goal to support those in our community living in poverty

8. Legal Issues

- 8.1 Any proposed new Local Council Tax Support Scheme must go through certain steps to comply with the provisions stated in the Local Government Finance Act 2012 before it can be adopted by this Council as a Billing Authority
- 8.2 Before making a scheme, the authority must (in the following order): -
 - (a) consult any major precepting authority which has power to issue a precept to it;
 - (b) publish a draft scheme in such a manner as it thinks fit; and
 - (c) consult such other persons as it considers are likely to have an interest in the operation of the scheme
- 8.3 Our major precepting authorities are Surrey County Council and Surrey Police and Crime Commissioner.
- 8.4 The Council Tax Reduction Schemes (Default Scheme) (England) Regulations 2012, laid before Parliament on 22nd November 2012, set out the regulations for a default scheme and this was adopted by the Council subject to local policy needs in January 2013. The Secretary of State has issued amendment regulations setting out some changes that must be adopted by the Council for pensioners and the Council had also decided in 2013 to keep the schemes allowances and premiums in line with those for Housing Benefit for working age claimants. Each year any small amendments and the uprating of allowances and premiums are incorporated in our scheme regulations.

9. Governance Issues

- 9.1 The regulations for the scheme proposed to be adopted will need to be collated and made available for Council in January 2022.

10. Sustainability

- 10.1 The adoption of either suggested model will reduce the amount of paper being used to print revised bills.
- 10.2 The Model schemes will allow an online claim form to be implemented.

11. Risk Management

- 11.1 The Council, along with the other preceptors, bears the risk of the cost of the Council Tax Support scheme should caseload increase result in an increase in costs of more than predicted.
- 11.2 Any revisions to the scheme must be approved by 31 January 2022.
- 11.3 The scheme cannot be changed mid-year and therefore it is vital the correct scheme is in place.

12. Equalities Impact

- 12.1 An Equalities Impact assessment will be needed for the scheme put forward for adoption.
- 12.2 This will be undertaken as part of the consultation process, dependent upon the option recommended for consultation. It is expected that any changes to the current scheme that reduce the current award will have an adverse impact on specific household income.

13. Human Rights

- 13.1 No impact

14. Community Safety

- 14.1 No impact

15. Consultation

- 15.1 A consultation will be needed with major perception authorities and the community

16. Officer Comments

- 16.1 Timescales are very tight to deliver a new scheme to be adopted by 31 January 2022

Annex 1

Recommended LCTSS scheme broad outline

Band	No children	1 Child	2 Child	Max award	Predicted Households
1	Passported Households			95%	1,137
2	£0 -59.99	£0 - 129.99	£0 -199.99	80%	145
3	£60 – 129.99	£130 - 199.99	£200 – 269.99	60%	73
4	£130 – 199.99	£200 – 269.99	£270 – 339.99	40%	24
5	Income or savings above maximum			0%	36

Passported Households

To qualify as a passported household the claimant and / or partner they must be in receipt of:

- Income Support
- Job Seekers Allowance (Income Based)
- Employment Support Allowance (Income Related)
- Universal Credit and not working

Income to be taken into account for the bands

- Net average earnings from employment
- Rental income
- Private / occupational pensions
- Partner maintenance
- Maternity allowance
- Statutory Sick pay
- Job Seekers Allowance (contribution based)
- Employment and Support Allowance (contribution based)
- Industrial Injuries
- Widowed Parent's Allowance

Income to be disregarded

- Bereavement Support Payment
- Child Benefit
- Child maintenance
- Disability Living Allowance
- Housing Benefit
- Personal Independence Payments
- Carer's Allowance
- Employment Support Allowance (Support component)
- Universal Credit (earnings only taken in to account)
- War Pension
- Flat rate £20 per week from net earnings

Capital Limit

- Upper capital limit £6000 or above
- Capital under £6000 fully disregarded

Other adults in the household

Flat rate deduction in respect of any other adults in the household in addition to the claimant and / or partner of:

- £5 per week not working
- £10 per week in work

Annex 2 Worked examples

Passported

Single claimant

Current scheme	70% max	
Universal Credit	£79.38	
LCTSS award	£13.94	Band A
	£16.26	Band B
	£18.59	Band C
	£20.91	Band D
	£20.91	Band E to H

Model 3	95% max
